DEPARTMENT OF AGRICULTURE, BENGAL

FINAL FORECAST OF THE JUTE CROP OF BENGAL, 1945.

[NOTE.—**On an average of the five years ending 1943-44, the areas under jute in the Province of Bengal and the Indian States of Cooch Behar and Tripura to which this forecast relates, represent some 81·3 and 1·5 per cent., respectively, to the total area under jute in India.**]

Season.—Occasional droughts and a weak monsoon hampered the full performance of the crop in general. The crop in the North and East Bengal has, on the whole, done fairly well, but the drought seriously affected the crop in some West Bengal tracts where steeping water is also reported to be insufficient.

Area.—The area under jute of 2,017,710 acres is the licensed area after elimination of the lands for which licenses were issued but which were not actually sown as disclosed on an examination of the jute lands under section 14 of the Jute Regulation Act.

Outturn.—As in the previous years, the percentage figures are calculated on the basis of the Divisional normals which remain as follows:—

	Bales per acre.
Dacca and Chittagong Divisions	... 3·7
Rajshahi Division	... 3·5
Presidency and Burdwan Divisions	... 3·2

The total yield of the crop is estimated at 6,303,550 bales of 400 lbs. each for the Province.

Director of Agriculture, Bengal.

DEPARTMENT OF AGRICULTURE, BIHAR

FINAL FORECAST OF THE JUTE CROP OF BIHAR, 1945.

[NOTE.—**On an average of the five years ending 1943-44, the area under jute to which the Bihar forecast relates, has represented some 7·2 per cent. of the total area under jute in India.**]

Acreage.—The final returns of the jute-growing districts in the Province show that the area under jute is 158,900 acres as compared with 162,900 acres last year. The decrease in area is mainly due, as already stated in the Preliminary Forecast, to greater areas having been put under food crops in Purnea.

Weather condition.—In March rainfall was very deficient and below the normal in all the jute districts. In April, however, rainfall was above the normal everywhere. In May also rainfall was above the normal except in the district of Bhagalpur and the Santal Parganas. Rainfall in June and July again was deficient and below the normal everywhere.

Outturn.—This deficient rainfall has the adverse effect of reducing the outturn of the crop to 39 per cent. in the most important jute-growing district of Purnea. The outturns in Champaran, Muzaffarpur, Darbhanga, Bhagalpur, Saharsa and the Santal Parganas, however, remain at 85, 65, 59, 65, 69 and 67 per cent., respectively, of the normal.

Accordingly I estimate that the outturn this year will be 42 per cent. of the normal as in the last year. Taking the normal outturn to be 3½ bales per acre the gross outturn of the crop from 158,900 acres is estimated at 220,000 bales as compared with 230,200 bales last year. Adding 14,500 bales to this as probable imports from Nepal, the forecast figure for Bihar comes to 234,500 bales.

FINAL FORECAST OF THE JUTE CROP OF ORISSA, 1945-46.

[NOTE.—**On an average of the five years ending 1943-44 the area under jute in the territory to which this forecast relates, represents about 0·7 per cent. of the total area under jute in India.**]

Acreage.—The crop is mainly grown in district Cuttack. In other two districts, Balasore and Puri, it is cultivated to a small extent. The total area sown is estimated at 19,900 acres against 23,900 acres in the preceding year.

Character of the season.—The weather was favourable everywhere except in district Cuttack where it was not so at the time of sowing due to want of seasonable rainfall. The condition of the crop on the whole was fair.

Outturn.—The total outturn of the Province is estimated at 66 per cent. of the normal against 63 per cent. in the preceding year. On the basis of the 3¼ bales as the standard yield per acre the gross yield of the Province this year comes to 43,876 bales against 48,974 bales in the preceding year.

DEPARTMENT OF AGRICULTURE, ASSAM

FINAL FORECAST OF THE JUTE CROP OF ASSAM, 1945.

[NOTE.—**On the average of the five years ending 1943-44, the area under jute in Assam to which this forecast relates, has represented some 9·0 per cent. of the total area under jute in British India.**]

Character of the season.—As already stated in the preliminary forecast, the weather was generally favourable in the beginning but subsequently heavy and continuous rainfall checked the growth of the crop to some extent. The recent flood also caused considerable damage in almost all the districts.

Area sown.—The total area under the crop as estimated by the Deputy Commissioners comes to 181,100 acres against last year's actual area of 193,300 acres and 183,400 acres shown in the preliminary forecast of this year. The area reported is the preliminary forecast has been revised in all the districts except Darrang and the Garo Hills.

Outturn.—The average outturn per acre has been estimated to be 87 per cent. of the normal against 51 per cent. (revised on the basis of actual area) of last year. On the basis of the normal yield of 3·3 bales of 400 lbs. each per acre the total production of the Province is 520,700 bales against 324,000 bales (revised on the basis of actual area) of last year or an increase of 38 per cent.

Cachar (Plains) ..	300	400	300	75	90	1,000	900	Last week of August. Normal.	The decrease in area is due to unfavourable weather condition at sowing time. Slight damage has been done to the crop by flood and hence the outturn is anticipated to be a little below the normal.
Sylhet ..	40,200	24,200	25,600	65	75	56,600	69,100	Middle of August. Normal.	The increase in area is due to comparatively high price of jute. The weather was favourable at sowing time but towards the later part it became unfavourable. Flood also caused certain damage. These account for the low estimated outturn.
G alpara ..	90,000	58,000	58,200	40	90	69,600	157,100	First week of July. Normal.	The increase in area is due to favourable weather condition at sowing time. But subsequently heavy and continuous rainfall checked the growth of the crop to some extent. Considerable damage has also been done to the crop by recent flood. So the outturn is expected to fall below the normal.
Kamrup ..	61,000	44,300	36,000	65	90	97,000	110,200	Middle of August. Normal.	The decrease in area is due to substitution of paddy for jute. The weather at the sowing time was favourable but later on, the weather proved a bit rainy which affected the growth of the crop. The recent flood also caused considerable damage. So the outturn is anticipated to be a little below the normal.
Darrang ..	21,600	16,900	11,700	40	100	23,700	40,800	First week of August. Normal.	The decrease in area is due to increase of paddy cultivation due to Grow More Food Campaign. Weather was generally favourable for the cultivation and growth of the crop and a normal outturn is expected.

Nowgong ..	70,000	40,000	39,600	45	90	58,000	114,000	First week of August. Normal.	The decrease in area is due to taking more lands for paddy cultivation. Weather was generally favourable for the crop. Slight damage was caused to the crop by flood. So the outturn is anticipated to be a little below the normal.
Sibsagar ..	700	1,100	1,100	60	80	1,700	2,300	First week of August. Normal.	The weather was generally favourable for the crop. But subsequently heavy rainfall checked the growth of the crop. Flood also caused considerable damage. So the outturn is expected to be below the normal.
Lakhimpur ..	3,000	2,100	2,200	75	90	6,300	11,500	Middle of July. Normal.	The increase in area is due to favourable weather condition. The weather continued to be favourable throughout the whole season. Slight damage was caused by the recent flood. The outturn is expected to be a little below the normal.
Garo Hills (Plains)	6,200	5,400	5,400	45	80	8,300	14,700	Last part of July. Normal.	Weather was generally fair at the sowing time but later on, heavy rainfall caused some damage in the lowlying areas. So the outturn is expected to be below the normal.

4. The Director-General may from time to time specify by notification in the *Official Gazette* a period or periods in each year in respect of each zone during which no *gur* shall be manufactured therein by any person and no sugar or sugar product shall be manufactured except in a sugar factory by any person within such zone.

5. In every sugar factory situated within a zone the crushing of sugar-cane and the production of sugar shall, unless such sugar factory is expressly exempted from the provisions of this paragraph by order in writing of the Director-General, be commenced on or before such date in each year as may be specified in this behalf by the Director-General by notification in the *Official Gazette*.

10. If the owner or person in charge or control of a sugar factory refuses or omits to purchase sugar-cane from any person growing such sugar-cane within the zone within which such sugar factory is situated, the Director-General may, on application made to him in that behalf by such person, and after making such inquiry, if any, as he may deem necessary, by order in writing direct the owner or person in charge or control of such sugar factory to purchase from the applicant or his agent such quantity of sugar-cane at such place and by such date as may be specified in the order and thereupon such owner or person in charge or control of the sugar factory shall comply with such Order.

11. The Director-General may, with a view to securing compliance with this Order—

The Government of India have decided to revert to old Indian Standard Time with effect from 2 a.m. on Monday, 15th October 1945. The Government of Bengal are accordingly pleased to direct that with effect from 2 a.m. on the 15th October 1945 until further notice, the time observed in all Bengal Government offices shall be a time one hour in advance of the Indian Standard Time and 6½ hours ahead of the Greenwich Mean Time. For purposes of reference this time will be known as "Bengal Time".

No. 174/19/43-Police.—His Majesty the King has been graciously pleased to approve the institution of wound stripes to be worn in recognition of services undertaken during the present war since the 3rd September 1939.

2. Those wound stripes are distinctions to be worn in respect of service since the declaration of War and are not to be regarded in the nature of a reward.

3. A list of wounds or injuries which would qualify for Wound Stripes and a list of services, the members of which would be eligible for wound stripes, are given in Appendices A. and B. respectively of this notification.

4. There will be no posthumous awards.

5. (a) Wound stripes denoting wounds or injuries sustained in the present war will be of narrow *gold braid*, 1½ inches in length. One stripe will be issuable in respect of each occasion on which an individual has been wounded.

(b) A single wound stripe of *red rayon* (lustrous) braid will also be worn to denote wounds sustained in previous wars irrespective of the number of wounds. It will also be 1½ inches in length.

6. Wound stripes will be worn vertically in the centre of right breast pocket. Additional gold stripes will be spaced at half inch intervals and arranged symmetrically round the central line of the pocket. Persons entitled to both gold and red stripes will wear the red stripes nearer to the right shoulder.

7. Wound stripes will not be worn on great-coats.

8. Personnel who by reason of their service have become entitled to wear wound stripes may at their option continue to wear them on plain clothes after cessation of service.

9. The method of issue of wound stripes will be as follows:—

(a) Application for wound stripes supported by documentary evidence should be submitted to the Head of the Department concerned through the proper channel. The Civil Surgeon concerned will make recommendations for the award in those cases which have actually been admitted into a hospital for the treatment of injuries caused by such conditions as are laid down in Appendix A. When the Head of the Department is satisfied that the claim is justified he will authorise the issue of wound stripes. The Head of the Department will refer doubtful cases for the orders of the Provincial Government or the Local Administration, as the case may be, and the decision of the Provincial Government/Local Administration will be final.

(b) Applications for the single red wound stripe in respect of wounds received in previous wars will be dealt with in the same way. Claims may be proved by documentary evidence in the individual's possession or by any other available evidence.

10. Wound stripes will be replaced free when no longer fit for further wear. Any deficiency, loss or damage arising from neglect or carelessness will, however, be made good at the expense of the individual.

Commerce

NOTIFICATION.

No. 4370Com.—8th October 1945.—The following Report of the Board of Conciliation appointed by the Government of Bengal under section 6 of the Trade Disputes Act, 1929, to investigate into and promote a settlement of certain trade disputes between the Calcutta Tramways Co., Ltd., and their workers represented by the Calcutta Tramway Workers' Union is published for general information:—

Report.

1. The Calcutta Tramway Workers went on strike from the 19th September 1945. After protracted negotiations the strikers agreed to call off the strike on the 28th September 1945 on the understanding that certain main issues are referred to a Conciliation Board under the Chairmanship of a non-official public figure. The Conciliation Board was constituted under the Government of Bengal notification No. 4222Com., dated the 2nd October 1945, which runs as follows:

Whereas as certain trade disputes as specified in the Annexure have arisen between the Calcutta Tramways Co., Ltd., and the workers of the said company, as represented by the Calcutta Tramway Workers' Union, and whereas it is expedient that the said disputes should be referred under section 3(*b*) of the Trade Disputes Act, 1929, as amended, to a Board of Conciliation, the Governor of Bengal is pleased, under section 6 of the said Act, to appoint the gentlemen named below to constitute such a Board for investigating the said disputes and promoting a settlement thereof:—

(1) Mr. J. C. Gupta, Bar.-at-Law, M.L.A.—Chairman.
(2) Mr. M. P. Birla of Birla Bros., 8, Royal Exchange Place, Calcutta—Representative of the company.
(3) Mr. A. R. Siddiqui, 9, Clive Street, Calcutta—Representative of the company.
(4) Mr. Bhupesh Chandra Gupta, Bar.-at-Law—Representative of the workers.
(5) Mr. S. K. Acharyya, Bar.-at-Law—Representative of the workers.

2. The points referred for conciliation were:—

(1) What classes of employees, if any, in addition to those already eligible in terms of the company's offer, should receive bonus?
(2) Whether the company should reinstate conductor 164, and if so, on what conditions?

(3) Whether the company should reinstate cashier, Ram Kamal Ghosh, and if so, on what conditions?

(4) Whether the disciplinary proceedings against conductor 790 should be withdrawn?

3. The Board is pleased to record that a settlement has been arrived at during the course of the investigation of the points in dispute and the following memorandum of settlement has been unanimously drawn up by the Board for the signature of the parties concerned, as contemplated in section 7(2) of the Trade Disputes Act.

Point (1) All the workers of the Tramway Co. who were in service on the 31st August 1945 would receive a month's pay as bonus.

Point (2) Conductor 164 will be reinstated by the company on the following conditions:—

(*a*) That he will forfeit an equivalent of one month's wages, *i.e.*, his reinstatement will take effect from the 17th December 1944.

(*b*) He will make a request to Mr. Smith for reinstatement and will express his regret for what the company considers to be a breach of discipline.

Point (3) The cashier, Ram Kamal Ghosh, will be reinstated, but will not draw his pay for the period from the 19th to 21st June 1945. He will also refund to the company as a condition precedent to his reinstatement the sum paid to him in lieu of notice, of one month's wages and will also return the security deposit to the company.

Point (4) To enable the Board to finish its work by the 6th October, the company has agreed to refer the case of conductor 790 to a Court of Law and to abide by the result of the trial. If conductor 790 is acquitted, then he shall be reinstated from the date of suspension.

4. The Board appreciates the spirit of conciliation shown by both parties to the dispute. The Board hopes that this conciliatory spirit will usher a new era in the relationship between the company and its employees.

5. The Board appreciates the attitude of the company in making this concession as regards bonus to the workers irrespective of length of service, but wishes it to be clearly understood that this concession should not be considered as a precedent and the bonus is not to form part of its employees remuneration.

6. The company has intimated that owing to intervention of the wage period, payment of the bonus may not be effected until the 12th of October 1945, and that also will impose additional strain upon the staff concerned. The Board desired the company to arrange as early a payment as possible owing the nearness of the Pujahs.

No. 1/2(101)/45-CG(CS).—It is hereby notified for public information that in pursuance of the proviso to sub-section (2) of section 6 of the Hoarding and Profiteering Prevention Ordinance, 1943 (Ordinance XXXV of 1943), and for the purpose of determining, under clause (b) of the said sub-section, the maximum retail sale price of any imported portable typewriter, I have sanctioned the addition to the landed cost thereof, of a sum representing 75 per cent. of that landed cost.

Bombay, the 19th September 1945.

In the said notification—

(1) In clause (1) after the words "or Gujarathi" the following proviso shall be inserted, namely:—

"Provided that where the article is sold in bundles or boxes or packets, the marking may be made on the bundle, or box, or packet, as the case may be; and if owing to the size or material of any article it is impracticable to make any marking thereon the marking may be made on a paper label pasted on the article".

(2) In clause (2) after the words "the alphabetical order" the following proviso shall be inserted, namely:—

"Provided that nothing in this clause shall apply to any dealer to whom an exemption therefrom is granted in writing by the Controller General".

Bombay, the 29th September 1945.

No. 1/2(107)/45-CG(CS).—Whereas it has been reported to me by dealers carrying on business in imported sanitary fittings that, in respect of sales of such articles made by them, the addition to the landed cost allowed by the normal trade practice in force on the 31st August, 1939, exceeded 20 per cent. thereof:

In pursuance of the proviso to sub-section (2) of section 6 of the Hoarding and Profiteering Prevention Ordinance, 1943 (Ordinance XXXV of 1943), and with reference to clause (b) of that sub-section, I hereby sanction the addition of 70 per cent. to the landed cost of the article for the purpose of determining the maximum price.

Provided that where the article is sold to a dealer the seller shall allow a discount of not less than 20 per cent. of the specified price.

Provided further that the seller may charge, in addition to the price, the actual packing charges not exceeding 10 per cent. of that price.

Provided further that, where the article is delivered elsewhere than at a port, the seller may also add to the maximum price a sum equal to the actual freight from the nearest port to the place of sale and the octroi duty actually paid in respect of that article.

Provided further that where the article is sold by a dealer carrying on business at a hill station specified in Schedule II annexed to the notification of the Government of India in the Department of Industries and Civil Supplies No. F.-22(101)-AP/44, dated the 10th June 1944, the seller may make an additional charge of 5 per cent. of the price of the article.

(1) The business of an ordinary general meeting shall be to receive and consider the balance sheet, the profit and loss account and the reports of the Board and the auditor, to elect members of the Committee, and to appoint auditors, and to declare any distribution of profits and to transact any other business which is required by or under the Ordinance to be transacted at an ordinary general meeting.

(2) At every ordinary general meeting the Board shall lay before the members of the Association present at such meeting a balance sheet and profit and loss account made up to a date not earlier than the date of such meeting by more than three months and the report thereon of the auditor appointed by the Board shall be attached to such balance sheet and profit and loss account or there shall be inserted at the foot of the balance sheet and profit and loss account a reference to such report, and such report shall be read before the members of the Association in the general meeting and shall be open to inspection by any member of the Association.

(3) A copy of the balance sheet and profit and loss account audited by the auditor appointed by the Board, together with the report of the auditor thereon, shall be sent at least fourteen days before the date of the general meeting at which such balance sheet and profit and loss account is to be laid before the members of the Association, to every member of the Association by post at the address for the time being entered in the register maintained by the Board under rule 8, and a copy of such balance sheet and profit and loss account shall also

be kept deposited at the office of the Association for the inspection of the members of the Association for a period of not less than fourteen days before such general meeting.

18. (*1*) Subject to the provisions of sub-rule (*2*), twenty-two members of the Association present in person shall be a quorum for a general meeting and no business shall be transacted at any general meeting unless the quorum required under this rule is present.

(*2*) If within half an hour from the time appointed for a meeting a quorum is not present, the meeting shall, in the case when it is called on the requisition of members, be dissolved and shall, in any other case, stand adjourned to the same day in the next succeeding week to be held at the same time and place at which the original meeting was due to be held, and if at the adjourned meeting a quorum is not present within half an hour from the time appointed for such meeting the members present shall be a quorum.

19. The Chairman of the Board, or in his absence, the Vice-Chairman of the Board, shall preside at every general meeting. In the absence of both the Chairman and the Vice-Chairman the members present may, after the expiry of fifteen minutes from the time appointed for the holding of such meeting, choose one of the members present who is a member of the Board to preside and in the absence of any such member or if any such member is unwilling to take the chair, choose any other member present to preside.

20. (*1*) Every question at a general meeting shall be decided by a majority of votes of the members of the Association and the voting on that question shall in the first instance be by show of hands. A poll may however be demanded at such meeting by the Chairman or by at least 10 members present and entitled to vote at such meeting or by any member who has or members who have in the aggregate subscribed to the Association not less than 20 units:

Provided that no poll shall be allowed to be demanded on the question of election of a Chairman of a general meeting.

(*2*) If a poll is demanded as aforesaid the votes of the members of the Association who desire to vote shall be taken in such manner and at such time and place as the Chairman of the general meeting may direct and such votes may either be taken at once or after an interval of adjournment or at any other time and the result of such poll shall be deemed to be the resolution of the Association at the general meeting at which the poll was demanded:

Provided that a poll demanded on the question of adjournment shall be taken without any interval of adjournment.

(*3*) In the case of an equality of votes the Chairman shall, both in the case where votes are taken by a show of hands or at a poll, have a casting vote in addition to the vote to which he may be entitled as a member of the Association.

(*4*) The member or members of the Association who have demanded a poll may at any time before the poll is taken withdraw such demand.

(*5*) All disputes as to the admission or rejection of votes at a poll shall be decided by the Chairman of the general meeting at which votes are taken and such decision of the Chairman shall be final.

(*6*) A declaration by the Chairman of a general meeting that a resolution at such meeting has been carried or carried by a particular majority or lost or has been turned down by a particular majority shall be final and binding.

(*7*) The demand of a poll shall not prevent the continuance of a general meeting for the transaction of any business other than the question on which a poll has been demanded.

21. The Chairman of a general meeting may, with the consent of members present at the meeting, adjourn the same from time to time and from place to place, but no business shall be transacted at any adjourned meeting other than the business left unfinished at the meeting at which the adjournment took place.

Votes of Members.

22. On a show of hands every member present at a general meeting in person shall have one vote and upon a poll every member of the Association shall have one vote for each complete unit contained in the amount at the time of the meeting standing to his credit in the books of the Association and such member may vote at such poll either in person or by proxy.

23. Where a Company registered under the Indian Companies Act, 1913, is a member of the Association, a person duly appointed to represent such Company in accordance with the provisions of section 80 of that Act may vote at a general meeting as if he were a member of the Association.

24. Where there are members of the Association who are jointly registered as subscribers of any unit, any one of such members may vote at any general meeting, either in person or by proxy, in respect of such unit as if he were solely entitled to such unit and if more than one of such joint subscribers be present at any such meeting, either in person or by proxy, then that one of the said persons so present whose name appears first in the order in which the said persons have been entered in the register of the members of the Association maintained by the Board shall be entitled to vote at such general meeting, either in person or by proxy, as the case may be.

25. (*1*) When votes are given by proxy, the instrument appointing a proxy shall be in writing under the hand of the person appointing the proxy or of the agent of such person duly authorised by him in writing in this behalf.

(*2*) Where the person appointing the proxy is a Corporation, the appointment shall be made in writing under the common seal of the Corporation or under the hand of a person authorised in this behalf in writing by such Corporation.

(*3*) No person shall be appointed a proxy who is not a member of the Association and is not qualified to vote at a general meeting:

Provided that where a Corporation is a member of the Association it may appoint as its proxy any of its officers, whether such officer is a member of the Association or not.

26. The instrument appointing a proxy and the power of attorney or other authority (if any) under which it is signed, or a copy of such instrument and the power of authority certified in such manner as the Board may direct to be a true copy shall be deposited at the office of the Association not less than seventy-two hours before the time of holding the general meeting at which the person named in the instrument proposes to vote and in default thereof such person shall not be allowed to vote at such meeting.

27. A vote given at a general meeting in accordance with these rules by a person named in an instrument of proxy shall not be invalid by reason only of the fact that the person who appointed the proxy died or such instrument of proxy has been revoked or the subscription of the unit in respect of which the vote is given has been transferred before such vote has been given if no intimation in writing of such death, revocation or transfer has been received at the office of the Association or by the Chairman of such general meeting before the vote is given.

28. Every instrument of proxy whether executed for a special meeting or otherwise shall be in Form B appended to these rules.

29. No member shall be entitled to be present, or to vote on any question either in person or by proxy or as a proxy for another member, at any general meeting or at any poll taken under these rules or be reckoned in a quorum if and so long as any sum is or remains due and payable by such member to the Association on account of his subscription in respect of any unit.

Dividends.

30. A dividend may be declared at a general meeting to be paid at such time as may be fixed at such general meeting to each member of the Association in proportion to the amount standing to his credit in the books of the Association at the time such dividend is declared, but no such dividend shall exceed the amount recommended by the Board.

31. No dividend shall be paid otherwise than out of the earnings of the Association available for distribution at the time when such dividend is declared and no dividend shall bear interest against the Association.

32. The Board may, from time to time, pay to the members of the Association such interim dividends as appear to the Board to be justified by the earnings of the Association.

33. A transfer of any subscription under sub-section (*4*) of section 7 of the Ordinance shall not pass the right to any dividend declared on such subscription before the date on which the register maintained by the Board under rule 8 has been altered under sub-rule (*3*) of rule 9 to give effect to such transfer.

34. When there are members of the Association who are jointly registered as the subscribers of any unit, any one of such members may give an effectual receipt for all dividends and payments on account of dividends in respect of such unit.

35. (*1*) Any dividend may be paid by cheque, warrant or postal money order sent through the post—

(*a*) to the address for the time being entered in the register maintained by the Board under rule 8 of the member of the Association entitled to such dividend, or

(*b*) in the case of members of the Association who are jointly registered as subscribers of any unit, to the address so entered of that one of the said joint subscribers whose name appears first in the order in which the said joint subscribers have been entered in the register so maintained by the Board, or

(*c*) to such person and to such address as the member so entitled or such joint subscribers, as the case may be, may direct, and every cheque or warrant so sent shall be made payable to the order of the person to whom it is sent.

(*2*) Except with the express authority of the Board, no dividend shall be payable to any person whose name does not appear in the register maintained by the Board under rule 8.

36. (*1*) All payments of dividends made by cheque or warrant sent in accordance with the provisions of rule 35 shall, if such cheque or warrant purports to be duly endorsed, be a good discharge to the Association in respect thereof.

(*2*) Notwithstanding anything contained in sub-rule (*1*) the Association shall not be responsible for the loss of any cheque, warrant or postal money order which may be sent by post to any member of the Association or by his order to any other person in respect of any dividend.

37. All dividends unclaimed for one year after having been declared may be invested or otherwise

made use of by the Board for the benefit of the Association until claimed.

Advice.

38. (*1*) The Board or the Committee may tender advice to the Director-General on any matter connected with the carrying out of the purposes of this Ordinance.

(*2*) If the Director-General is unable to accept any advice so tendered he shall refer the matter to the Board or the Committee as the case may be, for further consideration and if after such further reference there is still a difference of opinion between the Director-General and the Board or the Committee, as the case may be, the Director-General shall refer the matter to the Provincial Government for decision and the decision of the Provincial Government thereon shall be final.

39. The Director-General may refer any matter connected with the carrying out of the purposes of the Ordinance to the Board or the Committee for advice and the Board or the Committee, as the case may be, shall thereupon tender its advice on such matter to the Director-General.

Draft by-laws.

I. Model by-laws under clause (a) of section 375 of the Bengal Municipal Act, 1932, for the regulation of conduct of business in places used for the purposes mentioned in clauses (i), (ii) and (v) of sub-section (1) of section 370.

1. The licensee shall connect all drains in the place licensed under section 370 intended for the discharge of foul water with a municipal sewer, and the licensee shall not allow any foul water or refuse matter from such place to be discharged into a river, or channel, or any other reservoir of water intended for bathing, drinking or any other domestic purpose.

2. Where there is no sewer, the licensee shall collect the waste water from a place licensed under section 370 in properly constructed cesspools. Such cesspools shall be periodically cleansed or treated by the licensee in such a way as to render them inoffensive by activated sludge process or the contents thereof shall be otherwise disposed of in such manner as may be required by the Sanitary Inspector, Health Officer, or Chairman.

3. The licensee shall arrange for sufficient supply of water for cleansing the place licensed under section 370.

4. The licensee shall not cause or suffer any skin or hide which by reason of decomposition has become useless for the purpose of leather dressing, to be kept for a longer time than may be necessary in any part of the place licensed under section 370.

5. The licensee shall, at the close of every working day, cause every floor or pavement in the place licensed under section 370 to be thoroughly swept and washed. He shall, at the same time, cause all filth or refuse deposited on the floor or pavement of such place to be collected in suitable vessels or receptacles furnished with closely fitting covers and to be forthwith removed therein from the place.

6. The licensee shall cause the supply of water in every tank or other receptacle used upon the place licensed under section 370 for the washing or soaking of any skin or hide and not being a liming pit to be renewed as often as may be necessary to prevent the emission of noxious or injurious effluvia from the contents of the tank or other receptacles.

He shall cause every such tank or other receptacle to be furnished with a suitable cover and to be kept covered unless it is required to be kept open.

He shall cause every part of the tank or other receptacle, when emptied, to be thoroughly cleansed and shall cause all filth which has been removed therefrom to be forthwith conveyed from the place licensed under section 370 in suitable vessels or receptacles furnished with closely fitting covers, for disposal in a manner approved by the Commissioners.

7. The licensee shall cause all waste lime which has been taken out of any pit upon the place licensed under section 370 to be forthwith deposited in suitable vessels or receptacles or in a properly

constructed cart or carriage which, when filled or loaded, shall be covered in such a manner as to prevent the emission of noxious or injurious effluvia from the contents thereof, and shall with all reasonable despatch be removed from the said place for deposit in a place fixed by the Commissioners for disposal in a manner approved by the Commissioners.

8. The licensee shall cause every beam, table, bench, knife, hammer or other implement or apparatus used upon the place licensed under section 370 for the purpose of unhairing, fleshing breaking, scraping, rounding, scudding or stocking any hide, butt or pelt or in any other process of his trade, to be cleansed from time to time as often as may be necessary to prevent any accumulation of filth upon the beam, table, bench, knife, hammer, implement, or apparatus.

9. The licensee shall cause all filth which has been splashed upon any part of the internal surface of any wall of any building upon the place licensed under section 370 to be removed by scraping or by some other effectual means of cleansing at least twice in every year, that is to say, at least once during each of the periods between the first and twenty-first day of March and the first and twenty-first day of September. He shall at the same time cause every part of the internal surface above the floor or pavement of the building to be thoroughly washed with hot limewash.

Provided (*i*) that the foregoing requirements as to limewashing shall not apply to any part of the internal surface of any building which is painted or covered with impervious material and may be otherwise properly cleansed and (*ii*) that this by-law shall not apply to any part of any such building which is used only for the storage of dry leather.

10. The licensee shall cause any part of the internal surface of the walls of any building and every floor or pavement upon the place licensed under section 370 to be kept at all times in good order and repair so as to prevent the absorption therein of any liquid filth or refuse or any noxious or injurious matter which may be splashed or may fall or be deposited thereon.

11. The licensee shall cause every part of the interior and exterior of every tub or other vessel or receptacle used upon the place licensed under section 730 to hold a solution of the material known as "puer" to be thoroughly cleansed by scrubbing or by some other effectual means once at least in every week.

12. In a place licensed under section 370 in which the fleshing meat is dried for subsequent sale for the manufacture of such articles as glue or jujubes, the licensee shall cover the drying area by wire netting so as to prevent carrion birds from carrying away the material and dropping it in the vicinity of inhabited areas.

13. A breach of any of the provisions of by-laws 1 to 12 shall be punishable with fine which may extend to fifty rupees and when the breach is a continuing one, with a further fine which may extend to five rupees for every day after the date of first conviction during which the offender is proved to have persisted in the offence.

11. Model by-laws under clause (a) of section 375 of the Bengal Municipal Act, 1932, for the regulation of conduct of business in places used for the purposes mentioned in clauses (iii), (iv), (vi) and (vii) of sub-section (1) of section 370.

1. The licensee shall not use or allow to be used any portion of a place licensed under section 370, for residential or sleeping purposes, nor shall use or allow to be used any room within a building, in such place as a living or sleeping room, unless it is separated from the remaining portion of the said place by a substantial wall and contains a window opening directly to the sky and of dimensions not less than one-tenth of the superficial area of the room.

2. The licensee shall not employ any person suffering from any contagious or infectious disease at the place licensed under section 370.

3. The licensee shall store all materials which have been received on the place licensed under section 370 and which are not required for immediate use in the trade in such a manner and in such a condition as to prevent the emission of noxious or injurious effluvia therefrom.

4. The licensee shall thoroughly cleanse and wash at the close of every working day all floors or pavements in the place licensed under section 370 and shall collect all fragments of gut or other matter detached in the process of scraping and all garbage, filth or other offensive matter and place them in suitable vessels or receptacles to be forthwith removed with their covers affixed from the said place to a safe place of disposal appointed by the Commissioners or to be disposed of in a manner approved by the Commissioners. Each such vessel shall be constructed of galvanised iron or of some other non-absorbent material and furnished with a closely fitted cover and shall contain a sufficient quantity of a deodorant solution.

9. The licensee shall thoroughly wash within each first ten days of March, June, September and December of every year the interior of the place licensed under section 370 above the floor or pavement with hot limewash if such place has been in use since the last occasion on which it was so washed:

Provided that this by-law shall not apply to any part of such place as is covered with impervious material, in which case it shall be sufficient thoroughly to cleanse the same by washing with water.

10. The licensee shall not allow facility for the absorption of any liquid filth, refuse or other noxious or injurious matter in the interior of a place licensed under section 370 by reason of want of repair to the surface thereof.

11. The licensee shall adopt all appliances or means which the Commissioners may from time to time require for the purpose of preventing, abating, or minimising any nuisance or annoyance to the neighbourhood or to the public from the use to which a place licensed under section 370 is put and shall at all times maintain them in good and efficient order.

12. The licensee shall trap and connect the drains in a place licensed under section 370 with sewers with the consent of the Commissioners. Where there are no sewers or where permission to connect drains with the existing sewers has been refused by Commissioners the licensee shall collect waste water from such place in properly constructed cesspools. These should periodically be cleansed and

the contents thereof treated in a manner to render them inoffensive or in such other way as the Commissioners may require before disposal in the way recommended by them.

13. A breach of any of the provisions of by-laws 1 to 12 shall be punishable with fine which may extend to fifty rupees and when the breach is a continuing one, with a further fine which may extend to five rupees for every day after the date of the first conviction during which the offender is proved to have persisted in the offence.

Where there are no sewers or where the permission to connect drains with the existing sewers has been refused by the Commissioners, the licensee shall collect the waste water from such place in properly constructed cesspools. These should be periodically cleansed and the contents thereof treated in a manner to render them inoffensive or in such other way as the Commissioners may require before disposal in the way recommended by them.

9. The licensee shall provide air-tight lids or covers for every tank, cask or other receptacle, whether in daily use or not, kept for the purpose of dyeing in a place licensed under section 370. All such receptacles should be covered with air-tight lids overnight so that mosquitoes may not have the chance of gaining entrance into the receptacles.

By order of the Governor,
J. L. LLEWELLYN, Secy.

RESOLUTION No. 2469M.

Calcutta, the 10th October 1945.

The situation created by the maladministration of the Garden Reach Municipality in the district of the 24-Parganas has been under the notice of Government for a considerable time. The municipality was inspected several times by local officers who reported that the work of its collection and assessment departments was extremely unsatisfactory and that its conservancy arrangements were deplorable. The Municipal Commissioners were warned in January 1945 that if they did not show marked improvement both as regards sanitary and conservancy arrangements immediately and as regards collection by the 31st March 1945, action would be taken under the Public Health Ordinance. In spite of this warning, the Municipal Commissioners have failed to make any improvement in the affairs of the municipality.

2. The Commissioners of the municipality have reduced the rates of the municipality from the level prevailing before the municipality was separated from the Calcutta Corporation, and the rates, now imposed are the lowest among the big industrial area municipalities. The Commissioners, by passing a resolution on the 20th January 1945 postponing the question of increasing the rates, have shown their unwillingness to increase the rates to a figure sufficient to meet the increased costs of municipal services.

3. The Commissioners were to devote Rs. 1½ lakhs out of the annual contribution of Rs. 2½ lakhs from the Calcutta Corporation, to works of improvement but they have not fully utilised the money available for the purpose to improve the municipality, and inspection of the municipality by a local officer on the 26th May 1944 revealed that Rs. 51,000 has actually been diverted to the general fund in dereliction of statutory duty.

4. Inspection reports of the local officers show that the sanitary condition of the municipality is shocking, and that the conservancy arrangements are quite inadequate. Even with large sums of money available for permanent improvement since 1935 on account of the annual contribution by the Calcutta Corporation the Municipal Commissioners have not been able to put the drainage system in order, though they had the opportunity of doing so long before the outbreak of the war.

5. They have also defaulted in paying for the water supplies by the Calcutta Corporation.

6. The collection of rates by the Commissioners of the municipality has been extremely unsatisfactory. The statement below shows the state of collection for the last five years:—

Year.	Demand.			Collection.			
	Arrear.	Current.	Total.	Arrear.	Current.	Total.	Balance.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1940-41	1,16,682	1,97,983	3,14,665	55,288	1,36,687	1,91,975	1,22,690
1941-42	96,183	2,29,623	3,25,786	46,574	1,38,023	1,84,597	1,41,189
1942-43	1,23,485	2,29,262	3,52,747	53,509	1,54,023	2,07,532	1,45,215
1943-44	1,21,510	2,29,956	3,51,466	62,735	1,31,688	1,94,423	1,57,046
1944-45	1,25,451	2,12,917	3,38,368	79,198	1,50,064	2,29,262	1,09,106

There has been a slight improvement in the collection in 1944-45, but that is due to constant pressure by the local officers of Government.

7. After a very careful consideration of the whole matter Government has come to the conclusion that the Commissioners of the Garden Reach Municipality have shown their incompetency to perform and have persistently made default in the performance of the duties imposed on them by or under the Bengal Municipal Act, 1932. In exercise of the power conferred by section 553 of the said Act, Government accordingly declares the Commissioners of the Garden Reach Municipality to be incompetent and in default and to supersede the said Commissioners for a period of two years with effect from the 1st November 1945.

8. Ordered that the resolution be published in the *Calcutta Gazette*.

By order of the Governor,
J. L. LLEWELLYN, Secy.

SUPPLEMENT—Official Papers.

DEPARTMENT OF AGRICULTURE, BENGAL.

Calcutta, the 10th August 1945.

First Forecast of the Cotton Crops of Bengal for 1945-46.

(*Note.*—On an average of five years ending 1943-44, the area under cotton in Bengal to which this forecast relates, has represented some 0·3 per cent. and that in the Bengal State some 0·1 per cent. of the total area under cotton in India).

There are two varieties of cotton, early and late. The early crop is chiefly grown in Chittagong Hill-tracts and in the Tripura State and to a small extent in other districts. The late crop is grown in small areas in Bankura, Midnapore and Mymensingh.

Character of the season.—The weather condition and its effect on the growth of the crop have been favourable and the present condition of the crop is fairly good.

Area sown.—The total area sown this year under early cotton is reported to be 117,310 acres as against 107,128 acres and 107,028 acres respectively in the corresponding and the final forecasts of last year. No area has so far been sown with the late variety this year. The area under this variety was 60 acres last year as reported in the final forecast of that year. The increase in area this year as compared with that of last year is due to high prices of cotton and favourable weather conditions at sowing time.

Director of Agriculture, Bengal.

Calcutta, the 30th October 1945.

DEPARTMENT OF AGRICULTURE, BENGAL

Calcutta, the 6th October 1945.

First Forecast of the Winter Rice Crop of Bengal for 1945-46.

(*Note.*—On an average of the five years ending 1943-44, the area under winter rice in Bengal has represented some 21;1 per cent. of the total area under winter rice in India.)

Character of the season.—Drought in the earlier part of the season adversely affected the sowings and growth of broadcast amon paddy in many places. The raising of amon seedlings was also hampered in some districts due to insufficient rainfall in June. Transplantation generally commenced in July, but the progress was slow for want of sufficient rainfall. In August, however, the conditions improved in many districts, but the rainfall was still inadequate in almost all the districts of West Bengal, specially in Burdwan Division. As such transplantation in those districts was delayed and considerable areas could not be brought under cultivation. A little damage to the crop was also reported from some parts of Rangpur, Bogra, Pabna, Mymensingh, Dacca, Tippera and Noakhali due to flood, which affected the progress of transplantation as well. The flood water, however, receded quickly. The occasional showers towards the end of September have been beneficial to the crop everywhere and the crop of the affected areas is reported to be improving.

The present outlook of the crop, for the province as a whole, may not be regarded as unfavourable.

Acreage.—The total area under winter rice this year is estimated to be 19,605,300 acres as against 20,798,300 acres (revised) of last year as discovered as the result of plot to plot crop survey conducted by the Development Commissioner, Bengal, in 1944-45 and against 18,325,200 acres shown in the corresponding forecast of last year.

Outturn.—The outturn for the province is expected to be 81 per cent. of the normal this year as against 85 and 80 per cent. of the normal respectively reported in the corresponding and the final forecasts of last year, provided there is sufficient rain in October.

N. M. KHAN,
Director of Agriculture, Bengal.

Preliminary Forecast of the Bhadoi Crops of Bengal for 1945-46.

(*Note.*—On an average of the five years ending 1943-44, the area under autumn rice in Bengal has represented some 8·2 per cent. of the total area under rice in India.)

Character of the season.—In the beginning the season was not quite favourable everywhere due to insufficient and uneven distribution of rainfall, which delayed sowings and retarded the growth of crops, at places. Subsequent showers proved beneficial to the crops in East and North Bengal and some of the West Bengal districts. Sowings, transplantation and the growth of crops were adversely affected in the remaining districts of West Bengal, specially in Burdwan Division due to continued drought. As such, certain areas in those districts could not be cultivated with aus paddy. Some damage was reported from a few districts due to flood and excessive rainfall at the time of harvest. The prospects of crops, for the province as a whole, may, however, be regarded as not unfavourable.

Acreage.—The total area sown with different bhadoi crops this year is reported to be 7,342,300 acres as against 8,873,800 acres and 8,887,900 acres (revised) respectively shown in the corresponding and the final forecasts of last year. Of this the actual area under autumn rice is 6,671,500 acres as discovered by plot to plot crop survey conducted by the Development Commissioner, Bengal, this year. The area under autumn rice was estimated at 8,016,500 acres and 8,084,000 acres respectively in the corresponding and the final forecasts of last year.

Outturn.—The outturn of different bhadoi crops for the province is estimated at 83 per cent. of the normal as against 82 per cent. shown in both the corresponding and the final forecasts of last year. The outturn of autumn rice is estimated to be 84 per cent. of the normal this year as against 82 per cent. shown in the corresponding and the final forecasts of last year.

DEPARTMENT OF AGRICULTURE, BENGAL.

Calcutta, the 17th October 1945.

Second Forecast of the Sugarcane Crop of Bengal for 1945-46.

(*Note.*—On an average of the five years ending 1943-44, the area under Sugarcane in Bengal has represented some 7·9 per cent. of the total area under sugarcane in India.)

Character of the season.—Since the issue of the first forecast in August last, the weather and its effect on the growth of the crop have, on the whole, been favourable, though the crop of some West Bengal districts has been adversely affected to some extent due to inadequate rainfall. The present outlook of the crop for the province may be regarded as hopeful.

Area planted.—The total area planted with the crop is estimated at 323,500 acres this years, as against 306,000 acres and 309,700 acres reported in the corresponding and the final forecasts respectively of last year.

Outturn.—The average outturn of the crop for the province works out to 76 per cent. of the normal this year, as against 83 per cent. and 72 per cent. respectively shown in the corresponding and the final forecasts of last year.

Condition figures.—The outturn is estimated at 76 per cent. this year as against the 10 years' average of 82 per cent. This means the condition of this year's crop is equal to 92·7 per cent. of the ten years' average.

The current year's acreage is greater than that of the last year by about 4·5 per cent. The increase is mainly due to high price of gur and sugar.

N. M. KHAN,
Director of Agriculture, Bengal.

New Delhi, the 26th October 1945.

No. 4-VI/45-P.—The following Statute is republished for general information:—

THE INDIAN FRANCHISE ACT, 1945.

(9 GEO. 6, CH. 2.)

CHAPTER 2.

[*24th October, 1945.*]

AN ACT TO MAKE TEMPORARY PROVISION FOR THE INCLUSION IN ELECTORAL ROLLS IN INDIA OF PERSONS RETURNED FROM WAR SERVICE, TO RELAX RESIDENCE QUALIFICATIONS FOR THOSE PERSONS AND TO EXTEND CERTAIN INDIAN FRANCHISE QUALIFICATIONS WHICH DEPEND ON SERVICE IN HIS MAJESTY'S FORCES OR ON THE AWARD OF A PENSION.

Be it enacted by the King's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:—

1. **Inclusion in electoral rolls of persons returned from war service.**—(*1*) A person who has been engaged in war service, as defined for the purposes of this Act, may, not later than twelve months from the termination thereof or from the date of the passing of this Act, whichever last occurs, apply for his inclusion in the electoral roll for any of the constituencies mentioned in sub-section (*3*) of this section, and the roll shall, if he is entitled to be included therein, be amended accordingly.

(*2*) For the purposes of this section, a person shall be treated as entitled to be included in an electoral roll if he would be so entitled if the roll were being revised at or by reference to the date of his application.

(*3*) Subject to the provisions of this Act—

(*a*) the Governor-General in Council, in the case of a constituency for the election of persons to fill seats in either chamber of the Indian Legislature or for the election of persons to fill seats in the Legislative Council of the Chief Commissioner of Coorg; and

(*b*) the Governor of the Province, in the case of a constituency for the election of persons to fill seats in a chamber of a Provincial Legislature,

may make rules regulating the manner in which and the persons by whom any question arising as to the right of a person making such an application to be included in the roll is to be decided.

2. **Residence qualifications.**—(*1*) If on an application under the preceding section in respect of such an electoral roll as is therein mentioned or on the preparation or revision of such an electoral roll it appears that a person would have satisfied a residence qualification but for his absence on war service, that qualification shall be treated as satisfied in his case.

(*2*) In this section the expression "residence qualification" means, in relation to the electoral roll for any constituency, any provision (however expressed) contained in any enactment, Order in Council or rules, requiring as a condition of inclusion in the electoral roll either residence or the possession of a place of residence, at or for any specified time, in the constituency or other specified area.

3. **Definition of war service.**—(*1*) In this Act, the expression "war service" means service at any time during the period which begins with the third day of September, nineteen hundred and thirty-nine, and ends with such date as may be appointed by the Governor-General in Council, either—

(*a*) in any of His Majesty's naval, military or air forces; or

(*b*) under the Crown in any other capacity directly relevant to the prosecution of any war in which His Majesty is at any time engaged during the said period.

(*2*) If any doubt arises as to whether any service of a person is or is not war service, the question shall be referred, in the case of service under the Government of any Province,

to the Governor of that Province and, in the case of any other service, to the Governor-General in Council, and the decision of that Governor or, as the case may be, of the Governor-General in Council, shall be final.

4. **Extension of certain franchise qualifications.**—(*1*) The enactments, Orders in Council and rules mentioned in the Schedule to this Act shall have effect subject to the amendments therein specified, being amendments extending the franchise qualifications depending on service in His Majesty's regular military forces or the Auxiliary Force (India) or the Indian Territorial Force to other cases of service in His Majesty's forces or the reserves thereof, and extending the franchise qualifications depending on the award of a civil, military or political pension to cases of an award of a pension in respect of naval or air service.

(*2*) Any power conferred by or under any Act to amend, revoke or vary any of the provisions mentioned in the said Schedule shall include a power to amend, revoke or vary those provisions as amended in the manner specified in the said Schedule.

5. **Supplementary.**—The functions of the Governor of a Province under this Act shall be deemed for the purposes of the Government of India Act, 1935, to be included among the functions as respects which he is, by or under that Act, required to exercise his individual judgment.

6. **Printing.**—A copy of the Government of India Act, 1935, giving effect to:—

(*a*) the amendments mentioned in sub-section (*2*) of section two of the India (Estate Duty) Act, 1945; and

(*b*) the amendments made by section four of, and Part I of the Schedule to, this Act;

shall be prepared and certified by the Clerk of the Parliaments and deposited with the Rolls of Parliament and His Majesty's printer shall print in accordance with the copy so certified all copies of the Government of India Act, 1935, which are printed after the said copy has been so prepared, certified and deposited.

The Calcutta and District Consolidated Electric License, 1946.

Notice is hereby given that The Calcutta Electric Supply Corporation Limited (Incorporated in England) has applied to the Bengal Government for the grant to it under the Indian Electricity Act, 1910 (as amended) of a single consolidated license in place of the fourteen licenses by which its undertaking is at present covered. A copy of the draft of the license applied for is reproduced below. Its terms empower the Bengal Government, if they so desire, to purchase the whole undertaking in 1950. The area of supply described in the draft license is the same precisely as that covered by the Corporation's existing licenses.

DRAFT LICENSE.

The Calcutta and District Consolidated Electric License, 1946.

License for the supply of electric energy granted by the Government of Bengal under the Indian Electricity Act, 1910.

License is hereby granted to The Calcutta Electric Supply Corporation, Limited, a Company registered in England under the English Companies Acts and having its registered office in London, to supply electrical energy in the area and with the powers and upon the terms and conditions specified below.

1. **Short Title.**—This license may be cited as "The Calcutta and District Consolidated Electric License, 1946".

2. **Interpretation.**—The several words, terms and expressions to which by the Indian Electricity Act, 1910, or by the rules thereunder, meanings are assigned shall have in this license the same respective meanings: provided that in this license—

(*a*) "the Act" shall mean the Indian Electricity Act, 1910;

(*b*) the expression "the licensees" shall mean and include, the said Calcutta Electric Supply Corporation, Limited, and their permitted assigns;

(*c*) The expresson "deposited map" shall mean the plan of the area of supply hereinafter specified which has been deposited with the Government in pursuance of the rules under the Act, which plan is signed for the purpose of identification by the Secretary to the Government of Bengal in the Department of Commerce, Labour and Industries and by the Agent of the licensees;

(*d*) the term "unit" shall mean the quantity of energy equivalent to a current of one thousand amperes flowing under an electromotive force of one volt during one hour;

(*e*) unless otherwise stated, where roads or streets are mentioned as forming the boundary or part of the boundary of any area in this license, the premises, properties or structures abutting upon either side of such roads or streets are deemed to be within the area referred to. Where any part of a boundary is stated to be a railway, the area shall be deemed to include such part of the railway as lies along the boundary referred to. Where any part of the boundary is stated to be a railway station or passing through a railway station the whole of such railway station, premises shall be deemed to be included in the area so that the boundary will be the outer side of the station premises and lands. Where any part of a boundary is stated to be a canal or "khal" or river or stream or inlet and where the boundary line is stated to run along the same (but not where the line is stated to run across the same) then such canal, "khal", river, stream or inlet shall be deemed to be included in the area;

(*f*) the term "large consumer" shall mean a consumer who shall agree to take from the licensees and pay for a minimum consumption of 500,000 units of energy per annum;

(*g*) the term "small consumer" shall mean a consumer who shall not so agree;

(*h*) the term "the undertaking" shall include all the undertakings which have been authorised by the licenses set out in the First Annexure hereof and which are consolidated into a single undertaking under this license.

3. **Area of Supply.**—The area within which the supply of energy is authorised by this license (the area of supply under the Act) is the whole of the area bounded as set out in the Second Annexure hereof.

The boundaries of the said area are delineated in the deposited map by a heavy red line.

4. **Purpose of Supply.**—The licensees are hereby authorised to supply energy—

(*a*) direct to large and small consumers within the area of supply for all purposes;

(*b*) in bulk to distributing licensees for sale by them to consumers within their respective areas of supply: provided that the distributing licensees so supplied in bulk shall not be at liberty to supply to any one consumer energy exceeding 100,000 units per annum unless with the prior permission in writing of the licensees. If such permission is refused, such consumer shall be supplied direct by the licensees;

(*c*) to small consumers within the area of supply of a distributing licensee who takes a bulk supply from the licensees, provided that the consent of the distributing licensee has been obtained to the supply to such consumers. If such distributing licensee fails or is unable to supply energy to any small consumer within his area, the licensees may proceed to supply such consumer without the consent of the distributing licensee.

5. **Compulsory Works.**—The compulsory works specified in the licenses set out in the First Annexure hereof having been executed to the satisfaction of the Provincial Government it is hereby expressly declared, in pursuance of clause (*f*) of sub-section (*2*) of section 3 of the Act, that Clauses I and IV of the Schedule to the Act shall be excepted from incorporation in this license.

6. **Creation of Sub-Areas.**—In pursuance of clause (*f*) of sub-section (2) of section 3 of the

Act, and by way of exception to section 22 of the Act, it is hereby expressly declared that—

(*a*) the licensees shall not be under any obligation to supply energy to any small consumer in any road, street or lane in which the licensees have not already laid down or constructed low or medium pressure mains until the Provincial Government shall, after enquiry, have decided that the local demand in any sub-area as undermentioned is sufficient to provide a reasonable return to the licensees on the expenditure incurred in giving a supply of energy to small consumers in that sub-area. On any such enquiry the licensees shall be entitled to be heard, and regard shall be had to the question whether high pressure mains for large consumers have or have not already been laid down to the sub-area concerned. Where such high pressure mains have already been laid down the licensees shall commence supply within six months after receipt of notice in that behalf from the Provincial Government and for that purpose the licensees shall construct any necessary transformer station within or near such sub-area. Where such high pressure mains as aforesaid have not previously been laid down the period of the notice shall be extended to at least twelve months. In the event of supply to small consumers being directed to commence in a sub-area to which no such high pressure mains have been laid down, the licensees may at their option construct a temporary generating station in such sub-area instead of laying high pressure mains to the sub-area. If it be found necessary for the licensees to apply to Government for compulsory acquisition under any law for the time being in force of any land for such transformer station or temporary generating station abovementioned, any notice by the Provincial Government to commence supply shall run from the date on which possession of the acquired land is given to the licensees. If, after notice given, the licensees shall be prevented from commencing by reason of earthquake, flood, tempest, fire or act of God, or other cause beyond the control of the licensees, the period of the notice shall be extended accordingly,

(*b*) the portion of the area of supply which is not covered by the low or medium pressure mains referred to in sub-clause (a) of this clause shall be deemed to be divided into such sub-areas as may from time to time be ordered by the Provincial Government, after enquiry in the manner provided by sub-clause (a) aforesaid, or approved by the Provincial Government on the application of the licensees, and each such sub-area shall for the purposes of section 22 of the Act be deemed to be the "area of supply" referred to in that section, and the provisions of section 23 of the Act regarding undue preference shall apply as if each sub-area were covered by a separate license. Any sub-area may be formed as aforesaid either before or after any requests for supply have been received from intending small consumers,

(*c*) clauses V, VI, VII, VIII and XII of the Schedule to the Act, shall be deemed to be excepted in reference to all parts of the area of supply referred to in sub-clause (*b*) of this clause until the Provincial Government shall order or decide that the local demand for electric energy is sufficient to warrant the observance thereof in any sub-area as provided in sub-clause (*b*) aforesaid, and shall give notice in writing of such decision to the licensees, whereupon such clauses V, VI, VII, VIII and XII of the Schedule to the Act shall apply in respect of such sub-area,

(*d*) the following sub-clause shall be substituted for sub-clause (2) of clause X of the Schedule to the Act, namely:—

"Within six months from the date of the creation of a sub-area, the licensees shall give notice by public advertisement, in such a manner as shall be previously approved by the Provincial Government, of the method by which they propose to charge for energy supplied to consumers and the rates at which such energy will be supplied. Where the licensees have given such notice they shall not be entitled to change the method of charging or the rates at which energy will be supplied without giving notice thereof by public advertisement in the manner aforesaid and giving not less than one month's notice in writing or such shorter notice as the Provincial Government may deem proper of any such change to the Provincial Government and the local authority concerned and every consumer of energy who is supplied by them."

7. **Nature of supply.**—The supply to be given under this license shall be alternating current at a frequency of 50 complete cycles per second, or direct current, as follows:—

(*a*) for domestic and general purposes other than manufacturing, by a medium pressure three-phase four-wire supply at a pressure of 400 volts between phases and 230 volts between each phase and neutral, or, at the licensees' discretion, direct current at 225 or 450 volts: provided that where the maximum demand exceeds 50 kilowatts, the supply may, at the licensees' discretion, be given by a three-phase supply at a pressure of 3,300 or 6,000 volts between phases;

(*b*) for manufacturing purposes, where the maximum demand does not exceed 50 kilowatts, by a medium pressure, three-phase supply at a pressure of 400 volts between phases, or, at the licensees' discretion, direct current at 450 volts;

(*c*) for manufacturing purposes, where the maximum demand exceeds 50 kilowatts, by a three-phase supply at a pressure of 3,300, 6,000, 20,000 or 33,000 volts between phases.

The pressures stated above shall be as measured at the consumers' terminals and shall be uniform, within the limits prescribed by the Indian Electricity Rules, 1937, throughout the area of supply,

(*d*) for traction by three-phase alternating or direct current at such pressures as may be arranged:

Provided that the licensees may, from time to time, with the previous consent in writing of the Provincial Government and subject to such limitations and conditions as shall be prescribed in writing by the said Government, adopt any other system or pressures of supply for the purpose of the license.

8. **Limits of rates to be charged in respect of the supply of energy.**—The rates to be charged by the licensees for energy supplied by them shall not exceed the following maxima, namely:—

(*a*) for lights and fans—annas 8 per unit metered.

(*b*) for purposes other than lights and fans—annas 4 per unit metered.

(*c*) in the case of a method of charge approved by the Provincial Government on the application of the licensees, in accordance with section 23, sub-sections (3) and (4) of the Act, the maximum rates shall be such as the Provincial Government may fix on approving the matter.

9. **Control of rates.**—In the event of the option of purchase exercisable on the 1st day of January, 1950, as hereinafter mentioned not being exercised, the Provincial Government may at any time thereafter appoint a Committee, constituted according to such enactment governing the control of rates of supply of electrical undertakings in India as may be in force at the time, to examine the rates of supply of the licensees with reference to principles laid down in such enactment; and if the Provincial Government approves the recommendations (or any of them) made by such a Committee, the recommendations so approved shall be binding on the licensees. No such Committee shall be appointed within five years of the acceptance by the licensees of the recommendations of an earlier Committee.

10. **Purchase of the undertaking.**—(1) The option of purchase given by section 7 of the Act shall be exercisable on the 1st day of January, 1950, and thereafter at the end of every subsequent period of twenty years during the subsistence of this license.

(2) The purchase price payable upon the exercise of the said option of purchase on the 1st day of January, 1950, shall be in accordance with section 7(1) of the Act, the percentage addition being 20 (except as provided below), together with a sum equivalent to one year's gross revenue (calculated as the average of the three years 1947-1949) received by the licensees for supply of energy and rent of meters and other apparatus on consumers' premises in the area previously included in the following among the licenses set out in the First Annexure hereof:—
